7) RULES FOR RUNNERS

- The race is run on a 390,04 m mondo-surfaced indoor track (four tracks). Please run or walk close to the inside line of the track so that faster runners can pass you easier.
- The running direction will be changed every six hours (at 6 pm, at midnight, and at 6 am). If you are resting right before the direction change, it would be better for lap counting if you could come back to the track before the direction change occurs.
- When running on inner lane stay as inside as possible, then it is easier for faster runners to overtake you. Yes, there is always some faster than you on the track.
- Use of Nordic walking poles is forbidden.
- **Please do not run or walk side by side / shoulder to shoulder on the inside track (line) as it will obstruct faster overtaking runners!**

8) AT THE END OF THE RACE

Exactly at 12:00 (noon) there will be a signal to stop running.

After that all the runners are required to stop immediately and leave their chip and id tag attached to the strap of the chip on the track exactly on the spot.
